SELECTED MATERIAL SLIM AESTHETICS SMART INSPIRATION

Air/Gem/Metal

## Selected Material Pinnacle of CMF Design

**3** premium materials and **9** colors.

Collision between modern and future.

Raging imagination with exquisite design.

## Simon M7 Gem

Utilize the transparency of **Glass**

Texture of natural jewel

Artistry aesthetics revealed

## Simon M7 Gem

### Anti-glare Glass Classy Matte Surface

**7H** high strength etched AG glass, with automated seamless process,  
**70%** high intensity haze effect, while preserve the transparency of glass.  
Exquisite **visual & touch**.

**Simon M7 Gem  
AF Nano Coating  
Ever-lasting Clean Surface**

AF nano-coating is the process of applying a surface layer that repels water, oil and dirt.  
**No fingerprint**  
The elegance always endures.

## Simon M7 Metal

**Metal** - a unique design language.

Restore the texture of metal materials.

Simon applies more techniques to activate the beauty of metal materials.

## Simon M7

### Anodic Oxidation Process Vivid Color

**Aviation-grade** aluminum material

Anodic oxidation process, effectively improves the surface **hardness, insulation, resistance to wear & heat.**

Long-lasting metallic luster.

# Selected Material

simon

## ***Frosted silver***

Fine, uniform frosted texture surface allows the light to be evenly dispersed.  
The blend of technology and art presents the best aesthetics and quality.

## ***Satin Gold***

Delicate and refined surface.  
Combine softness of satin with the hard metal texture.

## ***Brushed Grey***

The wire drawing process  
Creates a flowing glossy surface and improves decorative effect.

## Simon M7 Air

**Plastic** - the brand new matte leather process brings out the delicate layers and luster of the surface, creating chic style to any space, no matter modern, quiet or ornate.

Ultra Slim Visual

simon

## Slim as Natural Breakthrough Innovation

**Frameless** panel design.

Cleverly balances the visual and function experience.

***Slim and elegant.***

## Beyond Imagination More Than Just Slim

The entire series reduces the panel thickness down to **7.5mm**,  
and thinner to **5.1mm** when switched on.  
Slim side lines beyond imagination, set new standards for living space.

## Fully Flat Multi-gang Appearance

When switch is off, the rocker is parallel to the base plate, achieving  **$0^\circ$  angle**.  
Switches are flush with sockets, better blending into the wall.

## Refined Details Precise Manufacture

The visual enjoyment of slimness comes from dedicated craftsmanship. Simon's more than a hundred years of polishing and never-ending breakthroughs, to create outstanding quality with innovation.

### *Neat Visual*

The rocker gap is down to **0.2mm**  
Height difference between rockers  $\leq 0.2\text{mm}$ .

### *Smooth Click*

The multilink micro-motion structure creates **1.6°** on/off angle, clear and smooth click.

### *Quiet and Cozy*

**1.6°** on/off angle, ultra short keystroke.  
Click sound below 40dB without noise.

### *Robust and Durable*

The steel base plate can handle **0.6N·m** torque,  
less deformation in installation.

## Uniform & Systematic

One stop solution, a complete package dealing with all scenarios.  
Impeccable unified appearance.

### 3000K Sensory Footlight

Sensors and luminous surfaces have a flat appearance and blend perfectly into the wall.

### Dual Band Gigabit Wall-mounted WiFi Router(POE)

Supports **2.4GHz+5GHz**, more balanced load on assigned frequency bands; Built-in AC management mode, manage multiple AP panels simultaneously.

### USB(5V 2.4A)+TYPE-C(65W)

Don't need chargers. Support multiple fast-charging protocols.  
Maximum **65W fast charging**.

### Thermostat

Upgraded color screen, clearer status display.

## Active Interaction Smart Inspiration

Break free with an innovative communication solution.

Active interaction functions.

Provide users with a full range of smart switches, to achieve an ***all-scenario*** smart life solution.

## Wireless Communication Break Away from Material Constraints

The innovative smart communication solution makes it possible that the signal can break through the constraints of glass and metal.

More efficient and stable.

Communication distance **150m\***.

Easily across any scene.

\* Data comes from Simon Lab

## Zigbee3.0

### ZigBee 3.0 Financial-grade Encryption

Adopt **ZigBee 3.0** protocol, less energy consumption, lower latency, mature ecosystem.  
Fast and stable smart interactions, easily handle complex situations.  
Apply **AES-128** financial-grade encryption, safeguarding user information security  
and make data processing and transmission more efficient.

## Active light language Interaction Status Clearly displayed & Controlled

**Scene switch:** all lights on/off, clear visual feedback on the panel.

**Dimming switch:** stepped indication with synchronized brightness display.

**Curtain switch:** Progressive light language blinking, status vividly displayed.

Above smart panel models are equipped with light language indication.

## Active Infrared Detection Everything Precisely Perceived

Equipped with active infrared detection, precisely detect target position.

**30cm** proximity sensing,

Panels effortlessly waken up with every swing of the fingertips.

## Dual-color Indicator Design

Dual-color backlight buttons, customizable engraving.

The color of the indicator is synchronized with the switch status

**Orange - ON**

**White - OFF**

Light status clearly displayed.

## Any Time Free to Dim

Long press the button to enter dimming mode.  
Light indicator will display the current brightness of the light.  
Load power **400W(LED)/gang**.

## Break Existing Boundary All Functions Fully Integrated

Based on the original smart switches, add **8 Gang Smart Scene Switch**,  
**Switch+Scene Multifunction Switch** 4-inch Smart Color Screen Thermostat  
Integrated functions bring innovative experiences

## 3 Control Methods Enjoy Free Lifestyle

Provide touch control, voice control, and APP control **3** channels of interaction, satisfying different user preferences.

*"Enjoy free lifestyle at your fingertips."*

## Buttons and Touch Screen

Buttons apply micro-motion structure, clear and firm feedback;

Touch screen with all information clearly displayed, finger swipe and tap to control all functions

## Phone App Remote Control

Simon Smart App supports remote controlling smart devices, customized control settings, and checking on device status.

*"Anywhere, anytime, enables smart home control."*

## Customize Scene Interaction

Based on Simon Smart ecosystem, users can freely create exclusive life scenes. The whole family can enjoy smart control together.

Simon | ELV

**Low voltage switches integrated with control systems**

The M7 series of low voltage switches are designed for use with **the RCU bus system**.

These switches are ideal for installation in commercial or residential settings, such as hotels, offices, villas, and more.

**The RCU bus system** controls the automation of essential functions, including curtains, lighting, heating, air conditioning, energy management, and other smart space features.

It intelligently transforms spaces, optimizes usage, enhances reliability, and improves energy efficiency.

Plate: 86\*86mm  
Box: 72\*72mm  
Fixing Center: 60.3m

## Smart Tunable white and Dimming Set (with Simon Smart ZigBee light)

**66E8017MTY**

Smart Tunable white and Dimming Set (with Simon Smart ZigBee light)

Smart LED KC1 Tunable WH Module Max12W15°2700-6000K

\*KC1 Frame required

**N62E0-1158**

Smart LED KC1 Tunable WH Module Max12W24°2700-6000K

\*KC1 Frame required

**N62E0-1159**

Smart LED KC1 Tunable WH Module Max12W36°2700-6000K

\*KC1 Frame required

## Smart Thermostat

**66E7102GTY**

Smart Ventilation & VRF Module (Simon Smart,modbus)

\*can be customized into FCU type

**66E7104GTY**

Smart Floor Heating&VRF System (Simon Smart,modbus)

\*VRF,need customized AC gateway module

**N62E0-1160**

Smart LED KC1 Tunable WH Module Max12W60°2700-6000K

\*KC1 Frame required

**N6524-0460**

SmartDriverCC 200mA36VDC/220-240V ZigbeeTunableWH(9W)

**N6524-0462**

SmartDriverCC 300mA36VDC/220-240V ZigbeeTunableWH(12W)

**N6524-0393**

SC1 constant current Tunable WH + Dim driver (9W200mA36VDC)

\*Zigbee module (N6524-0412) required

**N6524-0394**

SC1 constant current Tunable WH + Dim driver (12W300mA36VDC)

\*Zigbee module (N6524-0412) required

**N6524-0412**

Zigbee module for SC1/SV1 driver (Tunable WH + Dim)

**N6524-0437**

SV1 constant voltage tunable WH+dim driver(150W)

**N6824-0256**

LED Strip SS36 24V 2x96L 8mm 12W TunableWH IP20 5M

**N6824-0257**

LED Strip SS36 24V 2x96L 8mm 12W TunableWH IP65 5M

**N65E0-0022**

Simon smart TunableWH ZigBee Control Module 24V 240W(strip)

\*Need work with on off CV driver(strip)  
N6524-0456 N6524-0457  
N6524-0458 N6524-0463
